

THE INSENCERITY AND CRUERITY OF THE
PRESIDENTS OF ZAMBIA

All the Barotse people based in Livingstone and the outlying areas would like to add their voices and support and concur with the "position statement of BNFA to the President of Zambia" dated 22rd April, 2015 recently released. We thank our mother body (BNFA) in every respect of the document and we are calling on them to speed up the immediate actualization of the statehood of Barotseland. Nothing less and nothing more as we are sick, tired and fed up with the insincerity and cruery of those who have been privileged to be presidents of this country towards the Barotseland Issue.

His Excellency the current President (Mr. Edgar. C. Lungu) and all his predecessors both departed and those still alive, have had full information about how Zambia came into being vis-a- vis Barotseland agreement 1964. The fact is that they have taken the peaceful nature of Barotse nationals for "DOCILITY" as they kept and keep employing divide and rule tactics using some of the BRE indunas with insatiable appetite for coins of silver or a click of Nkoyas who do not have even a slightest idea on how they found themselves to be part of Barotseland.

The Kaunda regime abrogated the Barotseland agreement 1964 and each successive Zambian government has had the audacity of fooling the Barotse nationals by **NOT** being serious with the issue up until the BNC of 26th -27th March, 2012 which accepted the repudiation hence the setting into process the separation roadmap of what was initially meant to be a unitary State at the dawn of independence on the 24th October, 1964.

We strongly think Judicial International Platform is the only avenue left through which the protracted Barotseland impasse can be resolved and BNFA has demonstrated its capacity to handle cases of this nature over and above the Zambian regime. Therefore no stone should be left unturned to drag Zambia to the International court of Justice (ICC) in the Heague so that we put the case to rest instead of wasting our precious time with people who think that when we claim our birthright/ property, then we are being evil.

Our challenge, passionate, sincere, serious and polite request to His Excellency the president Mr. Edar.C.Lungu is to be a man of his words and **Do** what he promised his colleagues in Addis Ababa. Let him, for once, be magnanimous enough and show that he is not like his predecessors.

As for the treacherous indunas at BRE who betrayed our cause, they should **strongly** thank the Almighty God and their Stars that they were born in Barotseland and Not in **North Korea**, otherwise they would have been part of history by now as the sins they have committed by their action is beyond redemption.

JONATHAN K. KWALOMBOTA
